Felipe G. Bogo

Ph.D. Student

Hankou Road, 22
Nanjing, 210093, China
felipegbogo@gmail.com, felipebogo@id.uff.br

I am a Ph.D candidate in Mathematics at Universidade Federal Fluminense, currently a visiting Ph.D student at Nanjing University, working in Differential Geometry under the supervision of Sérgio de Moura Almaraz and Chen XueZhang. I obtained my Ms.C. in Mathematics from Universidade Estadual de Maringá (UEM) and my Bs.C. in Mathematics also from UEM.

Education

2024–2027 (expected) **Ph.D. in Mathematics**, *Federal Fluminense University*, Rio de Janeiro (Brazil)

2022–2023 **Ms. C. in Mathematics**, *State Maringá University*, Maringá (Brazil)

2017–2021 **Bs.C. in Mathematics**, *State Maringá University*, Maringá (Brazil)

Ph.D. Thesis

Title Yamabe-Escobar Singular Problem *(on going)*

Advisor Prof. Sérgio Almaraz

Sponsor CAPES-Brazil Fellowship

Master thesis

Title Hamiltonian Formalism in Riemannian Geometry

Advisor Prof. Ryuichi Fukuoka

Sponsor CAPES-Brazil Fellowship

Professional

Long Term Visits

2025–2026 **Visiting Student Research**, *Prof. Chen XueZhang*, Nanjing, Jiangsu (China)

Comp. Education

National Institute of Pure and Applied Mathematics (IMPA) - Additional Courses

2020 **Introduction to Lie Algebras**

2020 **Analysis on Manifolds**

2020 **Complex Analysis**

2020 **Measure and Integration**

2021 **Commutative Algebra**

2021 **Differential Topology**

2022 **Differential Geometry of Curves and Surfaces**

2022 **Fundamental Group and Covering Spaces**

Articles

Research Projects and Grants

Current

2025–2026 **Programa de Doutorado-Sanduíche no Exterior (PDSE)**, *CAPES 23038.003930/2024-79*

Past

2021–2022 **Finsler Structures of C^0-Class on Manifolds**, *CAPES - Brazil Fellowship*

2019–2020 $Sl_n(\mathbb{H})$ **and Applications of Systems Controllability**, *CAPES - Brazil Fellowship*

2017–2018 **Study of Basic Theory of Modules**, *Araucária - Brazil Fellowship*
